

The diagram is set on a 12x12 grid. A horizontal line at the 8th row from the top represents the ground. Two camera footprints, each a circle with a horizontal diameter, sit on this line. The left footprint is centered at column 3, and the right footprint is centered at column 8. The left footprint is labeled 'CAM\_FIXED' and the right one 'CAM\_PTZ'. A dashed line extends from the top-right of the right footprint towards the top-right corner of the grid.

CAM\_FIXED

CAM\_PTZ
