

Spring 2024 – EMCH368 Mechatronics Lab (300 Main St. A020)

Lab Policy

All students are required to get their personal Arduino Starter Kit. Each section has a designated time (two hour slot) in the week that the students need to deliver their lab work. **Each section runs on a different lab schedule so it is not possible to attend a different section than the registered one.**

Lab assignments will be announced one week in advance. The lab evaluation is based on the following two parts:

1. Post-Lab assignment (50%): Online in Blackboard, due at the end of the week of each lab.
 2. Circuit evaluation\grading (50%): In person, performed by the TAs, see options below.
1. **Quick Grading Option**: Requires work to be done outside of (and prior) to the lab time. Students must have the code for **ALL** of the weekly exercises prepared as well as the **final circuit built** in the listed exercises. Students will then demo their final circuit working properly to the TA upon entry to the lab (**students need to show up within the first hour of the 2-hour slot for each lab**). The rest of the circuits from the weekly exercises will be prebuilt within the lab, and the students must upload their code to the prebuilt circuits to receive full credit.
 2. **Complete all exercises in Lab**: This option is offered to students who do not want to work on the lab exercises outside of the designated lab times. Students choosing this option do not need to have anything built before coming into the lab, however, **all exercises must be completed** and checked by TA's in order to receive full credit. Don't forget to bring the Arduino Starter Kit with you!
 3. **Online Assessment**: Available only to students that have a valid reason (**with proof**) to not be physically present. **This is done by sending an email to the session TAs at least 24 hours before the beginning of the session.** TAs will follow up with instructions to connect on Blackboard Ultra or MS Teams and do the evaluation within the 2-hour slot of the session. Students need to have active camera and mic (only live sessions allowed, no videos will be accepted). Students who choose this option will have to **complete all exercises** for the weekly labs and have all checked by TA's for full credit.

IMPORTANT: Make sure you include all the TAs of your section in your email communications about the labs. See contact information in the table below.

List of TAs

Section	Date-Time	TAs
001	Tuesday 4:30pm-6:30pm	Jacob Vaught (jvaught@sc.edu) Quinn Labrozzi (qdl@email.sc.edu)
002	Wednesday 4:30pm-6:30pm	Alex Vereen (avereen@email.sc.edu) Connor Madden (cmmadden@email.sc.edu)
003	Thursday 4:30pm-6:30pm	Jacob Vaught (jvaught@sc.edu) Trotter Roberts (tjr7@email.sc.edu)
