

Noah Young

(803) 233-2780 | nryoung@email.sc.edu | linkedin.com/in/noah-young-2a4347393

EDUCATION

University of South Carolina, Honors College
B.S. Aerospace Engineering, Minor in Electrical Engineering

GPA: 4.00
Aug 2025 – May 2029

Honors: President's List Fall 2025, USC Honors Student

PROFESSIONAL EXPERIENCE

Integrated Multiphysics & Systems Engineering Laboratory (iMSEL)

Columbia, SC

Undergraduate Research Assistant, Dr. Yi Wang

August 2025 – Present

- Fine-tuned YOLO model for maritime small object detection deployed on NVIDIA Jetson Orin
- Co-authoring ASME IDETC paper on synthetic radar augmentation using land/water segmentation and object extraction to 'intelligently' regenerate radar imagery from real sensor data
- Designed 3D-printable radar mount enabling research vessel integration for offshore data collection
- Built raw radar-to-PNG conversion pipeline with real-time visualization tools; initiated geometric radar simulation framework for validation
- Annotated IR/RGB image pairs for multi-spectral object detection training datasets
- Delivered weekly presentations and monthly written reports to DoD sponsors

Strategy Communications LLC.

Remote

Social & Data Intelligence Assistant

May 2022 – Present

- Analyzed large, complex datasets and contextualized insights for clients in various industries
- Develop high-level reports and train new team members in data analysis workflows
- Built targeted data-search queries to identify relevant information tailored to client needs
- Coordinated deadlines and cross-team communication for significant reporting projects

PROJECTS

Airplane Modeling System

Simscape/MATLAB

- Constructed a rudimentary aircraft dynamic model using Simscape to simulate basic flight behavior and powertrain interactions

CAD-Based Radar Stand Harness

Creo Parametric

- Designed a structural stand in Creo Parametric to support radar mounting for sensor data collection

LEADERSHIP EXPERIENCE

American Institute of Aeronautics and Astronautics (AIAA)

Columbia, SC

Member

August 2025 – Present

- Participate in aerospace engineering activities, career advancement opportunities, and student engineering conferences

Fly Club (Pilot Training Interest Group)

Columbia, SC

Member

August 2025 – Present

- Engage in introductory flight knowledge activities, flight simulator practice, and involvement in the aviation community

SKILLS

Technical: Python, C++, MATLAB, Simulink, Simscape (MathWorks Certified), Creo Parametric
Languages: English (native), Spanish (proficient)
