S. C. UNIVERSITY 19
GA. MED. COLLEGE
Carolina Was in Rare Form
Played a Pretty Game.
ON-SIDE KICK A FEAT

Murdaugh Made a Ninety-Five Yard
For a Touchdown.

In Augusta on November 4 Carolina
walloped the Georgia Medical College
their second gridiron battle
score of 19 to 5. Last season
same team was defeated on the
grounds by a small margin, as
year's game was a pleasant surprise
us all.

The teams seemed quite
matched at the opening of the game,
though Georgia was much heavier
the line. After a short time
Carolina got the ball on a fumble
made a spectacular run of 95
yards for a touchdown. This put
into the Carolina men and Georgia
"easy meat" from them on.

However, Georgia's back field
let up in their playing, and Carolina
sustained gains also scored a touch-
down. J. A. Brown made a perfect
pass to W. W. Brown for a 20
yard gain. The backs also made
able gains around our ends. Carolina
again scored a touchdown during
remainder of this half.

In the second half Carolina
superb ball. The

Enrolled Students Decrease

As of February 4, USC enrollment had reached 8,538 for the spring semester, 473 less than the comparable figure for the fall term—9,011.

This figure represents registration of on-campus students, those at the five USC centers, and special hospital schools of nursing affiliated with the University. There are also a number of non-credit students and auditors.

The Office of Admissions and Registration processed a total of 917 applications for the spring term. Of this number 476 were admitted—141 new freshmen, 167 transfers, and 366 re-admits.

The College of Arts and Sciences continues to have the largest enrollment with 2,413. The School of Business Administration has 1,555 students.

There are 436 people enrolled in evening school and 927 at the five off-campus centers. Also 186 nursing students are registered in the hospital schools of nursing at Sumter, Orangeburg, Anderson, Spartanburg, Columbia, and Charleston.

The Rundown

- Standard Timeline for grading
- Put a Student on USC dev. Foundation
- Better course planning software
- Mobile app for Self service
- Extend dining hall hours
- Stop overselling parking permits
- Extend T coop hours
- Move from plastic to paper for utensils
- Extend outdoor Wi-Fi coverage

Standard Grading Timeline – SBL 117 75

- Currently the University does not have a standardized timeline of grading and publishing those grades
- Students in all colleges report drastically different timelines in each class
- Students not knowing their grades for long periods can drastically impact their ability to learn
- Students can have multiple courses like this each semester, which could result in unexpected GPA penalties at the end of the term, resulting in losses of scholarships
- Proposed Solution:
 - The administration within the University develops a standardized timeline for professors
- Questions to Ask Yourself:
 - Is this even feasible?
 - What are the issues with this?
 - Who would have to carry this out?
 - What are the consequences/risks?

Students on Dev. Foundation – SBL 117 73

- SC has five foundations that support the university:
 - the Educational Foundation
 - the Development Foundation
 - the Business Partnership Foundation
 - the USC Alumni Association
 - the South Carolina Research Foundation
- The University Development Foundation is an affiliated nonprofit group that manages real estate and investments that help and benefit the university
- There is currently a faculty representative on its board but no student.
- The University of Washington Foundation Board and the University of Virginia School of Architecture Foundation Board both have students
- Proposed Solution:
 - The University Development Foundation create a student member position on its board – non voting
- Questions to Ask Yourself:
 - Is this even feasible?
 - What are the issues with this?
 - Who would have to carry this out?
 - What are the consequences/risks?
 - Why has it never been done before?

Course Planning Software – SBL 117 02

- Self Service Carolina included the "Schedule Planner" software
- In 2024, this was removed.
- Now students rely on the "Plan Ahead" software which is less comprehensive and does not provide advanced course filtering and planning
- Proposed Solution:
 - Bring Back Schedule Planner.
- Questions to Ask Yourself:
 - Why was it removed in the first place?
 - Who would have to carry this out?
 - What is the cost?

Extended Dining Hall hours – SBL 117 72

- Dining Halls close by 9PM.
- Many students are busy with classes until after 9.
- Longer hours would be better.
- Proposed Solution:
 - Extend hours
- Questions to Ask Yourself:
 - Why do they close at 9?
 - What is the cost?
 - Who would have to carry this out?
 - What are the issues with this idea?

Stop Overselling Parking Permits – SBL 117 95

- 21000 permits sold
- Only 17,000 parking spots...
- People skip classes bc they can't find parking.
- Enrollment is growing so we need to do something.
- Proposed Solution:
 - University needs to stop overcrowding.
- Questions to Ask Yourself:
 - Why do they oversell?
 - How would this solution actually be implemented?
 - Who would have to carry this out?
 - What are the issues with this idea?

Extend Library Hours Weekend – SBL 117 22

- Library closes at 7pm on Friday and Saturday.
- Some students are doing classwork on weekends
- These students need a place to study
- Proposed Solution:
 - Keep the library open longer.
- Questions to Ask Yourself:
 - Why does the library close early on Friday/Saturday?
 - What is the cost of doing this?
 - Who would have to carry this out?
 - What are the issues with this idea?

USC dining plastic to paper – SBL 117 53

- USC uses a lot of plastic in dining halls
- Plastic is bad for environment
- Therefore USC is bad for environment
- Proposed Solution:
 - Switch to paper forks and spoons.
- Questions to Ask Yourself:
 - Why do we not already do this?
 - What is the cost of doing this?
 - What are the issues with this idea?

Outdoor Wi-Fi – SBL 117 65

- Wifi is important for everything
- Most green spaces have bad wifi(shocker)
- Better wifi out there would be good for students
- Proposed Solution:
 - Add outdoor wifi sources.
- Questions to Ask Yourself:
 - Why do we not already do this?
 - What is the cost of doing this?
 - What are the issues with this idea?

Story Ideas I want to write on
before end of semester

- Columbia Canal & The Three Rivers Greenway
 - The region's signature riverfront vision keeps dragging; is the 2015-flood repair + greenway build-out finally on a credible path?
 - Is Columbia finally going to finish this after 30 yrs? Prolly not
- A meta-analysis.
 - Student Government & what students think of their bills

Any other stories?

 - Sustainability of USC
 - USC's Sustainability act is a sham

A photograph of a wooden pier or dock extending over a body of water. The water is a deep, vibrant green with visible ripples and a large splash of white water in the background. The pier is made of weathered wooden planks. The entire image is framed by a white, hand-drawn style border.

Thanks for coming!
