

$$R_L = 3 \quad R_R = -3$$

Biconvex (symmetric)

$$R_L = 2 \quad R_R = -6$$

Biconvex (asymmetric)

$$R_L = -3 \quad R_R = 3$$

Biconcave (symmetric)

$$R_L = 3 \quad R_R = 3$$

Meniscus (converging)

$$R_L = \infty \quad R_R = -3$$

Plano-convex

$$R_L = \infty \quad R_R = 3$$

Plano-concave
